

# IPMU 2002, Monday July 1

9h30 10h	Opening session			
	Plenary I - A.P. Dempster			
11h 11h30	Computing with words I F. Herrera I1	Networks R15	Automatic methods for odor and taste recognition M. Ramdani I30	Argumentation R8
12h30				
14h	Learning and mining R2	Fuzzy relations R6	Pattern recognition R4	Rough sets methods and applications I L. Polkowski I21
16h 16h30	Intelligent information systems I O. Pons I16	Modeling and fuzziness R7	Fuzzy arithmetics and the brain A. F. Rocha I5	Non classical logic R9
18h10 19h	Wellcome party			

## IPMU 2002, Tuesday July 2

9h	Plenary II - L.A. Zadeh				
10h					
10h30	Decision making  R12	Intelligent systems for video processing  J. Benois-Pineau I6	Fuzzy measures and integrals I  M. Grabisch I10	Belief functions  R11	Fuzzy sets and possibility theory in machine learning and data mining E. Hullermeier I2
12h30					
14h	Defuzzification and averaging of fuzzy systems  D. Ralescu I12	Applications of soft computing  R22	Fuzzy measures and integrals II  E. Pap I27	Fuzziness and conditional probability  G. Coletti I7	Evolutionary techniques  R13
16h					
16h30	Symbolic data analysis  E. Diday I31	Information processing in food engineering processes N. Perrot I20	Aggregation  R10	Data mining and multimedia systems  C. Marsala I29	Uncertainty & fuzziness management in evolutionary processes U. Sandler I4
18h10					

# IPMU 2002, Wednesday July 3

9h	Plenary III - B. Schweizer			
10h				
10h30	Possibility and imprecise probability	Mathematics	Computing with words II	Intelligent information systems II
12h30	R23	R14	F. Herrera I3	M.J. Martin-Bautista I17
19h	City hall reception			
20h	Banquet			

# IPMU 2002, Thursday July 4

9h30	Plenary IV - W. Kintsch				
10h30					
11h	Computing with words III  F. Herrera I19	Probability  R16	Metaphore and analogy I  C. Tijus I25	Aggregation operators  R. Mesiar I13	Information retrieval and querying  R3
12h40					
14h	Industrial track I  T	Statistical processing  R17	Metaphore and analogy II  C. Tijus I26	Fuzzy systems  R18	Advances in database technology I Operators  R. De Caluwe I14
16h					
16h30	Industrial track II  T	Dealing with uncertainty in spatial representation and reasoning I. Bloch I18	Rough sets methods and applications II  L. Polkowski I23	Reasoning  R19	Advances in database technology II App. and perspectives G. De Tre I15
18h10					

# IPMU 2002, Friday July 5

9h	Plenary V - P.M. Frank			
10h				
10h30	Intelligent information processing  A. Ralescu I22	Fuzzy modeling and control  R20	Intuitionistic fuzzy sets Theory and applications  E. Szmidt I24	Textile applications  X. Zeng I9
12h30				
14h				
15h20				
	Learning from partially labeled samples F. d'Alche-Buc I11			
	Linguistic methods  R21		Image processing  R5	
	Farewell party
